

I Care
SAN ANTONIO
BETTER VISION. BETTER LIFE

2020 IMPACT REPORT

SAVING VISION. CHANGING LIVES.

“The Light shines in the darkness, and the darkness has not overcome it.”

– John 1:5

Dear Friends of I Care San Antonio:

As we started 2020, we planned our impact to be even bigger and better, after all in the eye world 2020 represents perfect vision.

Who would have imagined the challenges all of us would face this year? As coverage of COVID-19 dominated the news cycle, most organizations would reflect on a year they would like to forget, but for the I Care Vision Center, this is a year to remember.

It’s the year where our generous donors, like you, stepped up and helped us reach our financial goals to keep operations running smoothly. It was also the year that our volunteers and staff, some at high risk, remained on the frontlines so that the I Care Vision Center could stay open and available. Our low-income and homeless patients suffering with diabetic retinopathy, glaucoma, severe cataracts and other potentially blinding eye diseases simply have nowhere

else to go for their eye care. Failure to see new and ongoing patients could have resulted in their permanent loss of functional vision, preventing their ability to work, drive, read and remain independent.

Because of your generosity, we were able to provide over **5,306 medical services** valued at an impressive **\$909,000 worth of care** this year.

In this annual report, we are pleased to highlight all of our accomplishments and share a few favorite patient stories which demonstrate our impact.

I Care San Antonio’s Vision Center is the only charity eye clinic in the United States managed by volunteer doctors providing such a high level and extensive amount of care. We are fortunate to have such an incredible group of ophthalmologists and optometrists dedicated to serving Central Texas and we are blessed by the financial support of our donors which help cover operational expenses to support their efforts.

Thank you for sharing our vision and helping us to improve lives, especially during challenging times. We depend on, and are grateful for, all you do to support I Care San Antonio.

With gratitude,
Libby Bentley
Executive Director

PICTURED ON COVER:

“My name is Phillip and I am a US Army Reserves Veteran. Before my surgery, I could not see out of my left eye. This was a challenge with safety related issues, especially for my work as a truck driver. Since my cataract surgery, I have been able to pass my state physical, get back on the road and return to work. Thank you I Care San Antonio for serving Veterans like me!” **Photo credit:** Greg Harrison.

“In giving we receive. The outpouring of love to and from our patients is daily proof of God’s grace.”

–John McClung, Board Member

I Care San Antonio is a place of transformation.

Founded as a faith based 501 (c)(3) with a mission to serve the less fortunate, I Care San Antonio provides complete eye care in surrounding communities and also internationally through mission work. The mission is supported by over 40 of San Antonio’s finest optometrists, ophthalmologists and vision specialists, working together to heal and transform the lives of those who need it most.

I Care San Antonio is in the business of quietly and efficiently curing the blind. There is just no other organization like it. It’s been a tremendous privilege to serve on the I Care San Antonio Board and to experience the level of care and commitment our volunteers and staff bring to the clinic every day. This past year presented us with many challenges but it also provided a tremendous opportunity to deliver eye care and support, when many others could not. The I Care Vision Center doors remained open throughout the ups and downs of the COVID-19 pandemic.

Our donors and partners did not waiver, standing shoulder to shoulder with us, making what we do possible during an unimaginable time in history. We are blessed to have the continued support from local donors and organizations that believe in our mission and have been witness to the life altering eye care and support provided by I Care San Antonio.

There is a great deal of momentum in telling our story, about who we are and how we work. We’re sharing our knowledge and experience with others while continuing to look forward and finding ways to expand our services to the underserved. This organization should be so proud of what it has accomplished. God has brought this group of servants together intentionally, and He will continue to guide their steady hands, transforming lives one patient at a time.

Faithfully,
Brian Anderson
Chairman of the Board

Why I Volunteer

“I volunteer and serve on the board of I Care because I believe in their mission to provide comprehensive eye care for low income and homeless children, adults, veterans and their families.”

– Helen Hicks Groos, Board Member

“Healthcare can be overwhelming, especially for those who do not know where to start. It can be time consuming, especially for those who cannot afford time away from their job or responsibilities. It can cause stress when we do not know what it will cost, and we fear that we cannot afford it when we find out. It can be impersonal, where sometimes you feel like no one really cares.

I Care San Antonio is one of those special organizations that genuinely cares and effectively tackles the obstacles related to getting quality eye care. From the doctors who volunteer their time, skill and expertise, to the staff who serve professionally with passion and grace, I Care is making a difference for those in our community who need it most. I chose to join the Board of Directors with the hope that I can help I Care in its mission to serve a growing underserved population in the San Antonio area.”

– Joey Oliver, Board Member

“I co-founded I Care over 25 years ago to help create an opportunity for myself and others to volunteer and make a difference.”

– Doug Radcliffe, Board Member

“Simply being able to distinguish clouds from the sky or see individual blades of grass is a blessing. My concerns and insecurities of my vision are near to none. I’ve been able to look in the mirror and see a familiar face rather than a hazy figure I had become used to. I just feel happy and blessed.”

THE GIFT OF SIGHT

I Care Mission

To improve lives by providing complete eye care – medical, surgical and optical – to those in need and to support healthcare ministries internationally.

I Care Vision

The vision of I Care San Antonio is to share the love of Christ by providing access to compassionate, quality eye care to all.

Our Core Values

- » Christ-centered with compassion and respect for all.
- » Medical best practices with integrity and excellence in all that we do.
- » Develop relationships and partnerships to further our mission.
- » Encourage service to others by providing volunteer opportunities.

The Gift of Sight

I Care San Antonio, founded in 1992, is a faith-based, medical non-profit organization managed primarily by volunteer doctors.

Locally, we accomplish our mission by providing complete eye care at the I Care Vision Center located next to Haven for Hope, a 22 acre homeless campus in downtown San Antonio. This program serves all low income (150% and below the federal guidelines on poverty) and homeless people in Bexar and the surrounding counties who do not have any type of health insurance or have health insurance with a deductible so high compared to their income, it acts as a barrier to receiving vision care.

Internationally, we partner with Medical Ministries International to co-sponsor over 50 medical

mission trips. In addition, each year, we lead a team to assist with vision care in an impoverished country.

Since I Care SA was established in 1992...

55,305

patients have received care at the I Care Vision Center in SA

5,178

surgeries and lasers have been performed

38,616

pairs of glasses have been provided

Total care valued at
\$12,540,778

Special thanks to Dr. Trinh Nguyen and Dr. Joseph Arrieta, pictured.

VISION CIRCLE

The I Care Vision Circle is a prestigious giving circle that directly impacts our community’s vision care equity. Members contribute through volunteer and monetary donations – making a significant impact in providing complete eye care to low income and homeless patients.

DREAM IT. FUND IT.

"Thank you so much for all you do! I would not have had anywhere to go for our children's glasses after losing my job due to the pandemic. The staff are very friendly and nice and very helpful. They know how to help lower income people that come to ask for help. Thank you and God bless!"

CHILDREN'S VISION PROGRAM

The iCare4kids Vision Program impacts children throughout Bexar and the surrounding ten counties by detecting and treating eye and vision problems, improving their development, learning, safety and confidence – helping them “see” a brighter future! Further impact of the iCare4kids Vision program eases the financial and emotional stress of parents and caregivers who do not have eye care insurance for their children.

After visiting the I Care Vision Center:

- ⇒ **100%** reported their headaches improved. (frequency, intensity, etc.)
- ⇒ **93%** reported their learning difficulties improved.
- ⇒ **93%** reported their ability to see the classroom board improved.
- ⇒ **92%** reported their ability to read books improved.

EYE ON DIABETES

***Eye on Diabetes** is a vision program that provides comprehensive eye care, from screenings to surgeries, for people with diabetes living in poverty.*

When it comes to the health problems deemed “epidemic” in Bexar County – diabetes is at the top of the list. The portion of adults who have diabetes has steadily increased to 14% of Bexar County’s population, which amounts to 255,600 people living with this debilitating disease.

The goal of the Eye on Diabetes program is to help diagnose, prevent and treat vision problems

associated with diabetes. Early detection and treatment is critical in reducing vision problems and preventing blindness. According to the National Eye Institute, over 40% of individuals with diabetes will have some type of diabetic retinopathy.

This program provides a full scope of diabetic eye care including screenings, exams, surgeries and medications.

Over 40%

of individuals with diabetes will have some type of diabetic retinopathy

What is diabetic retinopathy?

Diabetic retinopathy affects blood vessels in the light-sensitive tissue called the retina that lines the back of the eye. It is the most common cause of vision loss among people with diabetes and the leading cause of vision impairment and blindness among working-age adults.

SENIOR VISION CARE

Loss of vision is one of the most feared complications of aging. Approximately one in 28 U.S. adults older than 40 years is visually impaired. With a rapidly aging population, the number of persons with visual impairment in the United States and worldwide is expected to increase significantly in the next decade. Seniors with low vision are at a high risk of depression, medication errors, injury, and isolation. It is important for seniors to maintain their vision care, however, one in four Central Texas older adults have income at or below 200% of the poverty threshold and are likely to experience some type of economic hardship, thus making it difficult to afford vision care.

for supporting the Senior Vision Program

Helping low-income and homeless U.S. military veterans and their immediate family members access timely and complete eye care including medical, surgical and optical ... **because when one member joins the military the whole family serves.**

ALL STAR EYE CARE PROGRAM

I CARE
ALL STAR EYE CARE
for Veterans and Their Families

Through the All Star Eye Care Program, I Care San Antonio ensures eye health care equity to our most vulnerable veteran families.

Expanding coverage and supporting outreach efforts doesn't just help veterans – it helps their families. Often, it's assumed that all veterans are covered by Veteran Affairs (VA) insurance, but only 47% of Texas veterans are enrolled in VA coverage. Eligibility for VA coverage varies, depending on several factors such as the years of a member's service and the level of his or her disability. Moreover, VA coverage does not usually extend to family members.

In just the second year of the launch of this program, I Care San Antonio provided a total value of care of \$290,339 with a 13% increase in patient visits – **all during a pandemic.**

Thank you for supporting our most vulnerable veterans

I Care San Antonio, in partnership with Medical Ministry International, provides an opportunity to serve Jesus Christ by providing spiritual and compassionate healthcare in this world of need.

GLOBAL MISSIONS

International Missions Forms Compassionate Care at Home

By John McClung, International Missions Chairman

Seven years ago, I Care's co-founder, Doug Radcliffe, asked if I would consider becoming a board member. After some interviews and a site visit, I said "yes", and it came to pass. While my board service will end in the next year or two, my association with I Care, God willing, will continue until my last breath. It is pure joy to humble oneself in service to others. I'm convinced it's the secret sauce that keeps our amazing staff and volunteer doctors and technicians devoted to the hard work they do, day in and day out.

About three years into my service at I Care, Dr. Robert Rice asked if my wife, Mary, and I would be interested in going on a mission trip with Medical Ministry International, "MMI". I was well acquainted with what MMI was about, given I Care's long relationship with and support of MMI ... but neither Mary nor I had ever been "in the field." After some thought and prayer, we decided to go to Arequipa, Peru for a two-week vision mission trip. About sixty or so volunteers, including many doctors, nurses and technicians met the needs of over 3,000 patients and performed about 150 surgeries.

Our intention was to help others. The days were long and usually on our feet. My teammates and I at "Station 3" measured the vision of about 250-300 persons a day. Good thing I Care's Executive Director, Libby Bentley, was one of my teammates; the learning curve was steep. Mary worked at a station that, among other things, changed the surgical dressings on patients that had been operated on the day before. It seems nonsensical to say we were exhausted but not tired at the end of each day ... but that's the best I can describe it. There's that secret sauce again. The people we served came from difficult and lowly circumstances in many cases. They showed us such extraordinary love and gratitude for the little we were doing to help them. We were the ones that were supposed to be doing the giving, yet at the end of the day it felt as if the ledger were reversed. We, and I mean every one of us, had received far more than we gave. I am convinced it was God blessing us all; the servers and the served.

Despite the ravages of the pandemic ... and rest assured the people we serve

at home and abroad are the hardest hit ... I Care (as well as MMI) never quit serving those in need. Whether it was the support for indigenous teams abroad, in the case of MMI, or keeping the I Care Vision Center open and the lights on. Both organizations exhibited a steely determination to press on, and with God's help we did, are, and will continue to do so with even greater determination. To borrow the name of the classic book of meditations by Oswald Chambers, "*My Utmost for His Highest*".

Mary's and my overseas mission experiences translate 1:1 to the work I Care does in our community. Absolutely no difference. "Leaving the Village" has only opened my eyes wider to how important it is to be aware of my privilege and to not let it be the thing I worship, lest it be my undoing. I now better see that privilege – the bountiful life I/we can live – as a tool that gives us the time, talent, and treasure to humble ourselves in service ... at home and abroad.

"Little Children, let us not love in word or talk but in deed and in truth." – 1 John 3:18

JOIN US IN MAKING LASTING CHANGE

MONTHLY GIVING

Monthly contributions to I Care SA go directly to our greatest need and help us efficiently use our resources.

MATCHING GIFTS

You can multiply your donation by joining an employer matching gift program or donating during a matching campaign.

MEMORIAL GIFTS

These donations provide an opportunity to honor and remember loved ones while making a life-changing difference.

GIFTS IN KIND

Donations of medical equipment, pharmaceuticals, computers, and supplies help reduce our financial expenditures while meeting needs of our projects and center.

PLANNED GIVING

You can leave a legacy of compassion through gifts of securities and estate planning while considering your tax implications.

FOUNDATIONS & CORPORATE GIVING

Support from family foundations and corporations is vital to our growing programs.

For information on these giving options, please contact us:
